

# How I *Stand Apart* From Other Photographers.

BY TAZETTA PHOTOGRAPHY

---

*Just a few reasons on what makes my studio a little bit  
different—and a little bit special.*

I know there are a lot  
of photographers in the  
area to choose from.  
I also know that what I  
offer is special.

---

*I've worked hard over the years  
to cultivate clientele based on my  
commitment to an exceptional  
experience from start to finish!*  
Here are a few reasons why my  
studio stands apart from  
the rest of the competition...

*reason one*

## My Artistic Style

---

Over the past years, I've cultivated a unique photographic style that differentiates upon first glance. Clients have described my style as creative, vibrant, and timeless - which I take as a huge compliment! I photograph with both natural light (from the sun) and with studio lights, giving my images a creamy glow and flattering skin tones.

My editing process is equally unique; something I've developed over time and continue to do on a daily basis. Many photographers have asked me for my editing secrets, which I rarely give out! I am very proud to say that many fans and clients are able to discern my images from others' work upon first glance.

*reason two*

# My Experience

---

With such easy access to cheap, high-quality cameras, many people are setting up shop as a “professional photographer” these days. With years of industry experience, however, I know so much more goes into offering quality photography than just a good camera and a website!

I’ve been in business for years, and I’ve photographed many clients in many situations. My experience in nearly every lighting condition, ability to pose for flattering angles, exceptional customer service, education and training, and so much more have enabled me to keep doing what I do year after year!

*reason three*

# My Service

---

When a studio says it offers great service, it can be hard to discern exactly what that means. To me, quality service is a conscious commitment to putting my clients first. I'm here for you always, at any stage of the process, and I won't be satisfied until you are too!

I love having in-person consultations, brainstorming sessions, and sharing inspiration with clients. I also ensure that you're all set for your photoshoots, your questions are answered, and you feel comfortable in front of the lens. When it comes to deliverables, I guarantee your satisfaction with your final images and photo products. I won't rest until you're happy with my service!

*reason four*

# My Products

---

I offer some of the most high-quality, heirloom grade photo products the world has to offer. The accuracy of color in my prints is unparalleled, and the craftsmanship is breathtaking. I am so excited to offer my clients such special items that they won't be able to find anywhere else!

My products aren't made by cheap, consumer facing printing companies. I work only with labs that sell directly to professional photographers. Everything I sell is archival grade, meaning it is guaranteed to last for generations as family heirlooms if cared for properly.

*Let's get started!*

# Ready to book?

---

I can't wait to get started with you. Let's open the conversation with a free initial consultation! In it, we will go over my services, portfolio, and most importantly, your love story, which I would be honored to tell through beautiful imagery. Please reach me anytime via one of the methods I've listed below.
